

A PROUD PAST...

Nov. 10-12, 1919 - The American Legion passed its first resolution supporting the Boy Scouts of America. Today, the Legion is the chartering agency for more than 2,700 Scouting units that involve 73,000 youths.

June 15, 1923 - The first "Flag Code" was drafted during a conference called by The American Legion. It was eventually adopted by Congress in 1942.

July 17, 1925 - The American Legion Baseball program was created. Today, more than 52 percent of professional baseball players are graduates of The American Legion Baseball program.

June 23, 1935 - The first American Legion Boys State was convened to help youths gain an understanding of the structure and operation of American government.

Dec. 15, 1943 - Harry W. Colmery, Past National Commander of The American Legion, wrote the first draft of what later became the "GI Bill of Rights," the Legion's greatest single legislative achievement.

Sept. 1, 1966 - The American Legion voiced great concern over the fate of POWs in Vietnam. Today, the Legion continues to press for a full accounting of our POW/MIAs and is one of the leading advocates among the nation's major veterans organizations to push for action.

July 21, 1983 - "The American Legion-Columbia University Study on the Effects of Agent Orange on Vietnam-era Veterans," was launched. Results were presented to Congress in 1989.

Aug. 2, 1990 - The American Legion filed suit against the federal government for failure to conduct a study mandated by Congress of the effects of Agent Orange on the health of Vietnam veterans.

Oct. 1, 1995 - The Persian Gulf Task Force was formed to enhance service to America's newest generation of wartime veterans, thousands of whom suffer from illnesses linked to their service in the gulf region.

November 2002 - The American Legion launched a national "I Am Not A Number" campaign to identify and document the delays veterans faced in obtaining earned medical care benefits from the Department of Veterans Affairs.
